

AIM : Binary Search with Big-O Analysis

The image shows a screenshot of a C++ IDE with a dark theme. The left pane displays the source code for a file named 'main.c'. The code implements a binary search function and a main function. The right pane shows the output of the program, which is 'Element found at index: 3'. A blue 'Run' button is visible at the top of the code editor.

```
main.c Run ▶ Output
16
17     else
18         high = mid - 1;
19     }
20
21     return -1;
22 }
23
24 int main()
25 {
26     int arr[] = {10, 20, 30, 40, 50, 60, 70};
27     int n = 7;
28     int target = 40;
29
30     int result = binarySearch(arr, n, target);
31
32     if (result != -1)
33         printf("Element found at index: %d\n", result);
34     else
35         printf("Element not found\n");
36
37     return 0;
38 }
```

Element found at index: 3

RESULT : Binary Search with Big-O Analysis has been successfully found
